## ASSEMBLY INSTRUCTIONS

### FGI-1787C25

#### ASSEMBLY RATING

The Assembly Rating is a 5-point system that shows the degree of effort needed in assembling a specific product (with 1 being easy and 5 being difficult). For most products, two persons are recommended.

EASY  DIFFICULT

#### Tools Required for Assembly:

Phillips Screwdriver   
(Not Included)

2 PERSONS RECOMMENDED

Thank you for your purchase!

We hope you will enjoy your new product for many years to come. Our commitment to providing quality products does not simply end when a purchase is made. We stand behind our products and will provide any support needed in order for you to fully enjoy your purchase. Your satisfaction is the greatest recognition we could have.

Because we value your trust in our company, we will do our best to meet your service expectations. Should you have any assembly related questions, parts replacement requests, comments or suggestions, please feel free to contact us any time. To help expedite the service, please have the assembly instructions available, along with your order receipt.

# ASSEMBLY & CARE ADVICE

FOR YOUR FURNITURE TO LAST, CORRECT ASSEMBLY AND PROPER MAINTENANCE ARE NECESSARY.  
PLEASE FOLLOW THE INFORMATION PROVIDED BELOW TO FULLY ENJOY YOUR FURNITURE.

## BASIC ASSEMBLY TECHNIQUES

1  
It is highly recommended that the assembly should be done near the area of its intended location. Make sure you have enough space to move around during the assembly.

2  
Position each part correctly and insert screws or bolts into their respective holes by hand tighten or using the proper hand tool. Only tighten when step is completed or when instructed to do so.

3  
Use cardboard or carpet area when assembling furniture to prevent scratches. Make sure the furniture rests on a flat and level surface with each leg evenly touching the floor.

4  
ALWAYS have at least two people to help with transporting and assembling the product to avoid any potential injury and/or damage.

5  
Make sure all parts are properly aligned, then use the appropriate hand tool to completely tighten the bolts or screws. Do not use power tools and do not overtighten.

6  
TOOL BOX  
Save the instructions and store any supplied tool for later maintenance. After two weeks, check and tighten any loose hardware and repeat again every six months thereafter.

IT IS THE USER'S RESPONSIBILITY TO MAINTAIN THE FURNITURE. THE HARDWARE MAY LOOSEN OVER TIME AND MAY CAUSE THE FURNITURE TO BE WOBBLY AND UNABLE TO SUPPORT ITS INTENDED WEIGHT CAPACITY. THIS MAY LEAD TO COLLAPSE AND MAY CAUSE SERIOUS INJURY.

FAILURE TO FOLLOW THE GUIDELINES ABOVE MAY  
RESULT IN INJURY AND/OR PROPERTY DAMAGE.

# PRE-ASSEMBLY INTRODUCTION

Unless you are particularly adept at assembling flat-pack/knock-down furniture, we understand building ready-to-assemble furniture can be a frustrating experience for some. To help avoid confusion and to make the assembly process quicker and smoother, we have provided some helpful tips. Before you begin the assembly, please read the following:

1. Due to the size and/or weight on most of the ready-to-assemble furniture, it is highly recommended that the assembly should be done near the area of its intended location. Make sure you have enough space to move around during the assembly. **ALWAYS** have at least two people to help with transporting and assembling of the product to avoid any potential injury and/or damage.
2. To protect from damage, assemble the item on a clean, protective surface, such as on a carpet or cardboard.
3. Make sure you have taken all the parts and hardware out of their packaging. Do not throw away packaging material until assembly is completed.
4. Make sure all parts and hardware are accounted for by comparing the actual parts and hardware to the list provided in the assembly instructions. Also check for any irregularity such as crack, flaw or improperly drilled hole. If there is any problem or missing piece, please contact the manufacturer or the supplier. Please have the model number, part number and a brief description of the problem ready will help expedite the replacement process.
5. Read the entire instruction manual and view the diagrams first before assembling. Arrange your parts in order of use and group the identical hardware together to make it easier to grab each piece as you begin to assemble.
6. During the assembly process, make sure all parts are properly aligned before tightening with the tool provided or required for the assembly. Do not use power tools and do not over tighten.
7. When applying glue to the wood dowels to bond the parts together, please be **ABSOLUTELY** certain that the parts are correct and lined up with each other (refer to diagrams and take notice of the various pre-drilled hole locations). When in doubt, assemble the parts together first and if the parts fit right, then apply glue to the wood dowels.

# CAM LOCK FASTENER ASSEMBLY INSTRUCTIONS

**Note:** Every cam lock bolt must have a cam lock connector in order to fasten the parts together.

- (1)**  
Secure the threaded end of the cam bolt by using a screwdriver.  
A diagram showing a cam bolt being turned clockwise by a screwdriver. An arrow indicates the direction of rotation.
- (2)**  
Align the cam connector with its side opening (or arrow) pointing to the small drilled hole.  
A diagram showing a cam lock bolt being inserted into a pre-drilled hole in a corner. An arrow points to the bolt and the hole.
- (3)**  
Two parts should fit snugly against each other.  
A diagram showing two parts of a structure fitting tightly together at a corner.
- (4)**  
Insert the cam lock bolt into the pre-drilled hole above the cam connector.  
A diagram showing a cam lock bolt being turned clockwise by a screwdriver. An arrow indicates the direction of rotation.
- (5)**  
Turn the cam connector with a screwdriver until it will not turn any more with light to moderate force.
